Strength – Affects the amount of damage your various moves do to opponents. The greater your strength, the more damage you will do.

Toughness – A must for the ECW, brother! Toughness is your ability to take a beating without taking a loss.

Charisma – The ability to work the crowd and get them get behind you. Once the fans are pulling for you, you'll win move tie-ups and pull off more moves.

Speed – Speed allows you to evade opponent's attacks and surprise them with offense attacks of your own.

Recovery – Usually correlated (look it up) with Toughness, this is the ability to regain some energy after taking an especially vicious beating.

Mat Skills – A favorite of "Mr. Old School" Steve Corino, this is the ability to grapple with opponents and reverse many of the extreme maneuvers in **ECW: Hardcore Revolution**.
